# WELCOME...

Welcome to this special free sampler issue of *Mollie Makes Colouring*. Hopefully this will give you a flavour of the amazing illustrations that are featured in the 148-page print edition (see page 6 for details on where to get your copy – and the free colouring pencils that come with it!). To make the most of this sampler, simply print out the patterns and get colouring. Whether you use pencils or markers, the designs are a creative springboard: be bold with primary colours, or subtle with pastels; try different shades of one colour, or experiment with everything. However you choose to indulge in some colour therapy, have fun making each design uniquely yours!
